JOURNEY PLANNING

It's always a good idea to know where you are going and how to get there, before you leave the house

Find out where you need to get to - Google street view is good for 'walking' through your route and familiarising yourself with the journey. Once you've planned your route, why not practice your journey.

IF YOU ARE COMING TO COLLEGE BY BUS:

- What is the bus number you need?
- Where will you catch it from?
- What times do they run?
- Where do you need to get off?
- Are you eligible for a savercard?
- Check online here

IF YOU ARE TRAVELLING BY TRAIN:

- Where is your nearest station?
- How will you get to the station?
- What time does your train leave and arrive?
- If the train is delayed, do you know an alternative route?
- Will you sget a season ticket or buy a daily ticket?
- Will a railcard save me money?

IF YOU ARE TRAVELLING BY CAR:

- What is the quickest route/ less traffic in the mornings?
- How long will the journey take you?
- Is there another route you can take if the road is blocked?

You may want to walk or cycle to your campus each day. We have bicycle racks at all of our sites to keep your bike safe. Take a look at our campus pages for the full addresses and to plan your route.
